

# SunView FULL VIEW GLASS DOORS

SunView Doors are modeled after the architecturally preferred design of the “Original” Sunshine Door.

- SunView4517 is based on the Sunshine Door design with the glass fitted into the aluminum. The 4517 is 1-3/4” Thick and fits with the TX450 when used as an intermediate section.
- SunView505 Traditional offers setback glazing in the colonial design and as an intermediate can be fit with shiplap design 1-3/4” doors like the G5000
- SunView2 is a 2” thick full view glass and aluminum door with a heavy architectural design appeal which includes full 6” end caps and top and bottom rails for a rich look in residential and strength and performance in commercial.
